

Ghosttown Company

Biography

Ghosttown Company is a band formed in 2015 by singer, songwriter and guitarist Christian and drummer Steffen. The band plays Folk with elements of Rock, Americana and Traditional Irish and Celtic songs. The band's name describes the lost places left behind by Irish people during the great famine when thousands had to leave in search for a better life. Not just being another Irish Folk band, Ghosttown Company's style is based far more in between classic Folk and Folk-Punk which brings a new and fresh sound to the stages.

In late 2015 the band recorded their first three songs and produced a video for their own song "Far Away". After the first very successful gigs in 2016, Ghosttown Company signed a contract with the publishing company Prosodia. As a result of that, the band decided to record their debut full-length album in fall 2016. The album called "FolkRock" was released in July 2017 and is available on Amazon, iTunes, Spotify and www.prosodia.de
